Dear Mr. Curtis:

Thank you for completing the requirement of Condition #2 of the Hidden Splendor Resources, Inc. Mining Permit, which required that the Mining and Reclamation Plan (MRP) be updated with current ownership information. The hard copy information was reviewed and approved in April 2004 and incorporated into the MRP.

The MRP narrative supplied to the Division in September 2004 on computer discs will be transmitted to the Office of Surface Mining and the Bureau of Land Management along with the revised plates received on computer disc in March 2004.

The Division notes that the figures and appendices of the current MRP are not included in the computer disc and therefore the disc does not completely replace the hard copy of the MRP. The Division has considerable experience in the scanning of documents. Please contact me at (801) 538-5268, if you would like assistance in scanning the figures and appendices, so that a complete copy of the Horizon Mine MRP is available in electronic form.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
